

The Road Builders & Heavy Construction Association of Saskatchewan is the voice of the province's road building and heavy construction companies and serves as a member resource on standards, methods, and best practices in the industry. The Association represents over 200 members province-wide, and is led by a board of leading construction executives involved in various aspects of heavy construction and road building.

For over 50 years, its members have built roads, careers, and bright futures for the people of Saskatchewan. Today, the Association is looking to pave the way for continued growth and prosperity through the leadership of a dynamic new...

President

Reporting to a Board of industry leaders, you manage the day-to-day and financial affairs of the Association, provide advice on policy and priority-setting, and represent the interests of road building and heavy construction companies across Saskatchewan.

As a master multi-tasker, you prepare and seek approval for the Association's annual operating budget and manage the Association's finances within the goals and objectives set by the Board. In addition, you provide administrative and advisory support to the Association's standing and ad hoc committees, oversee the planning of annual meetings and special events, and develop and execute strategic and operational plans as required.

With your ear to the ground and your eyes on the horizon, you monitor and

communicate changes to public policy, legislation and regulations relevant to our members and stay on top of emerging trends and issues that could affect the industry down the road.

And, as the face of a thriving industry, you represent the Association to government, industry stakeholders, and the wider community in ways that strengthen the profile, reputation, and competitive position of our members. Building stakeholder trust, confidence, and buy-in comes naturally thanks to a friendly style, highly developed interpersonal and communication skills, and an ability to move in social, political, and industry circles effectively.
